JSC “Uzkimyosanoat” is strengthening its partnership with “New Uzbekistan” University to advance scientific and innovative projects aimed at boosting production efficiency and enhancing environmental conditions in the chemical industry.

During a recent meeting, experts from Uzkimyosanoat’s Innovation Department and university representatives discussed key initiatives to address current challenges faced by industry enterprises.

The parties emphasized the importance of developing scientific foundations and applying new technologies in production. They agreed to deepen cooperation to successfully implement joint projects.
